Practice Quiz

I. Name these bones:

1.
2.
3.
4.
5.
6.
7.
8.
9.
10.
II. Name these features:

11.
12.
13.
14.
15.
16.
17.
18.
19.
20.
III. Name these sutures

21.
22.
23.
24.
25.
IV. Postcranial Skeleton

26. Name the five sections of the vertebral column.
   a.
   b.
   c.
   d.
   e.

27. Name this bone.

   Is the anterior or posterior view of this bone?

   From what side of the body does this bone come?

28. Name this feature.

   This feature articulates with what bone?

29. Name this feature.

   This feature articulates with what bone?

30. Name this bone.
31. Name this bone.

32. This bone is made of three bones. Name those three bones as labeled in the picture:
   a.
   b.
   c.

33. Name this feature.

34. Name this feature.

35. Name this feature.

36. Name this bone.

   Is the anterior or posterior view of this bone?

   Is this the lateral or medial bone of the lower arm?

37. This bone articulates with what bone proximally?

38. Name this feature.
39. Name this bone.

What two bones articulate distally with this bone?

What is the lateral of those two bones (above)?

40. Name this feature.

What bone articulates with this feature?

What feature of that bone (above) articulates with this feature?

41. Name the bones of each section.

a.

b.

c.
42. Name this bone.

43. Name the three sections of this bone.
   a.
   b.
   c.

44. Name this bone.

45. Is this the medial or lateral end of this bone?
   With what bone does this end articulate?

46. With what bone does this end articulate?

47. Name this bone.
   With what bones does this bone articulate bilaterally?
48. Name this bone.

49. Name this feature.

50. Name this feature.

51. Name this feature.

What bone articulates with this bone at this feature?

At what feature of that bone?

Is the anterior or the posterior view of this bone?

From what side of the body does this bone come?
52. Name the first vertebrae.

This bone articulates with what FEATURES cranially?

53. Name the second vertebrae

54. Name the bones of each section.

a.

b.

c.
55. Name this feature.

What bone articulates at this feature?

56. Name this feature.

This bone articulates with what bone at this feature?

57. Name this feature.

Is this feature on the medial or lateral side of the bone?

58. Name this feature.

With what BONE does this feature articulate?
59. Name this bone.

60. Name this feature.

Is this feature on the medial or lateral side of this bone?

Is this the dorsal or ventral view of this bone?

61. Name this bone.

Is this the anterior or the posterior view of this bone?

62. Name this feature.

This feature articulates with what FEATURE of another bone?

63. There are two bones distal to this bone. Name the lateral of those two bones.
64. Name this bone.

65. Name this feature.

Is this the anterior or the posterior view of this bone?

What bone articulates with this bone proximally?

66. Name this bone.

67. Name this bone.
